Crafting Your DEV Identity

@jessleenyc

Online community
for developers

@thepracticaldev || https://dev.to

Today's Agenda

1. What & Why   **2.** How to Craft   **3.** How to leverage

What is your DEV identity?

## your knowledge and <u>persona</u>.
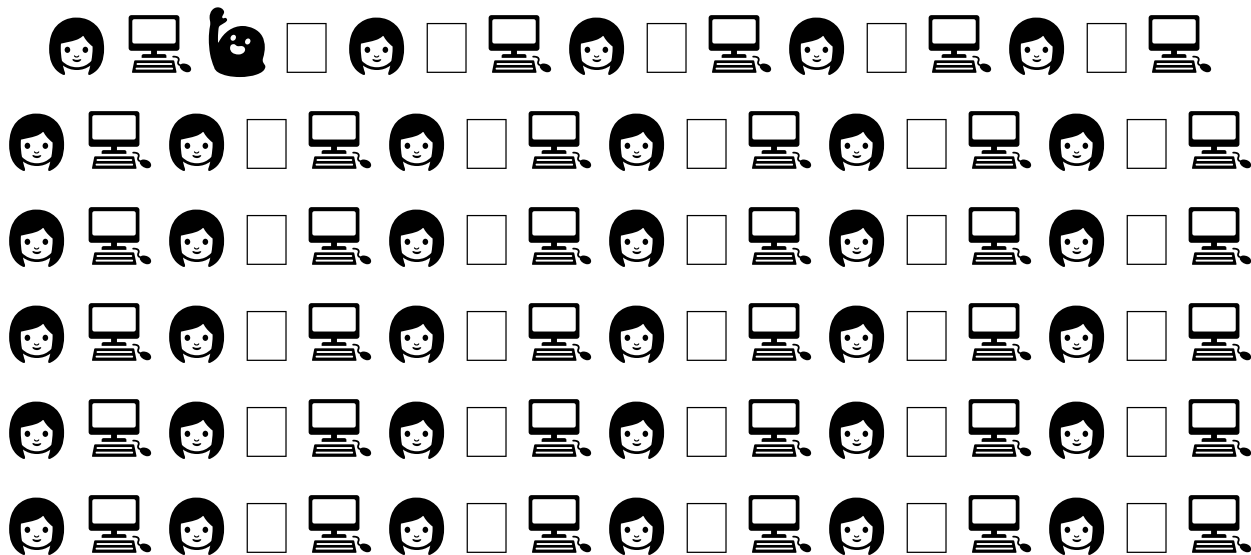

main differentiator.

How do you develop it?

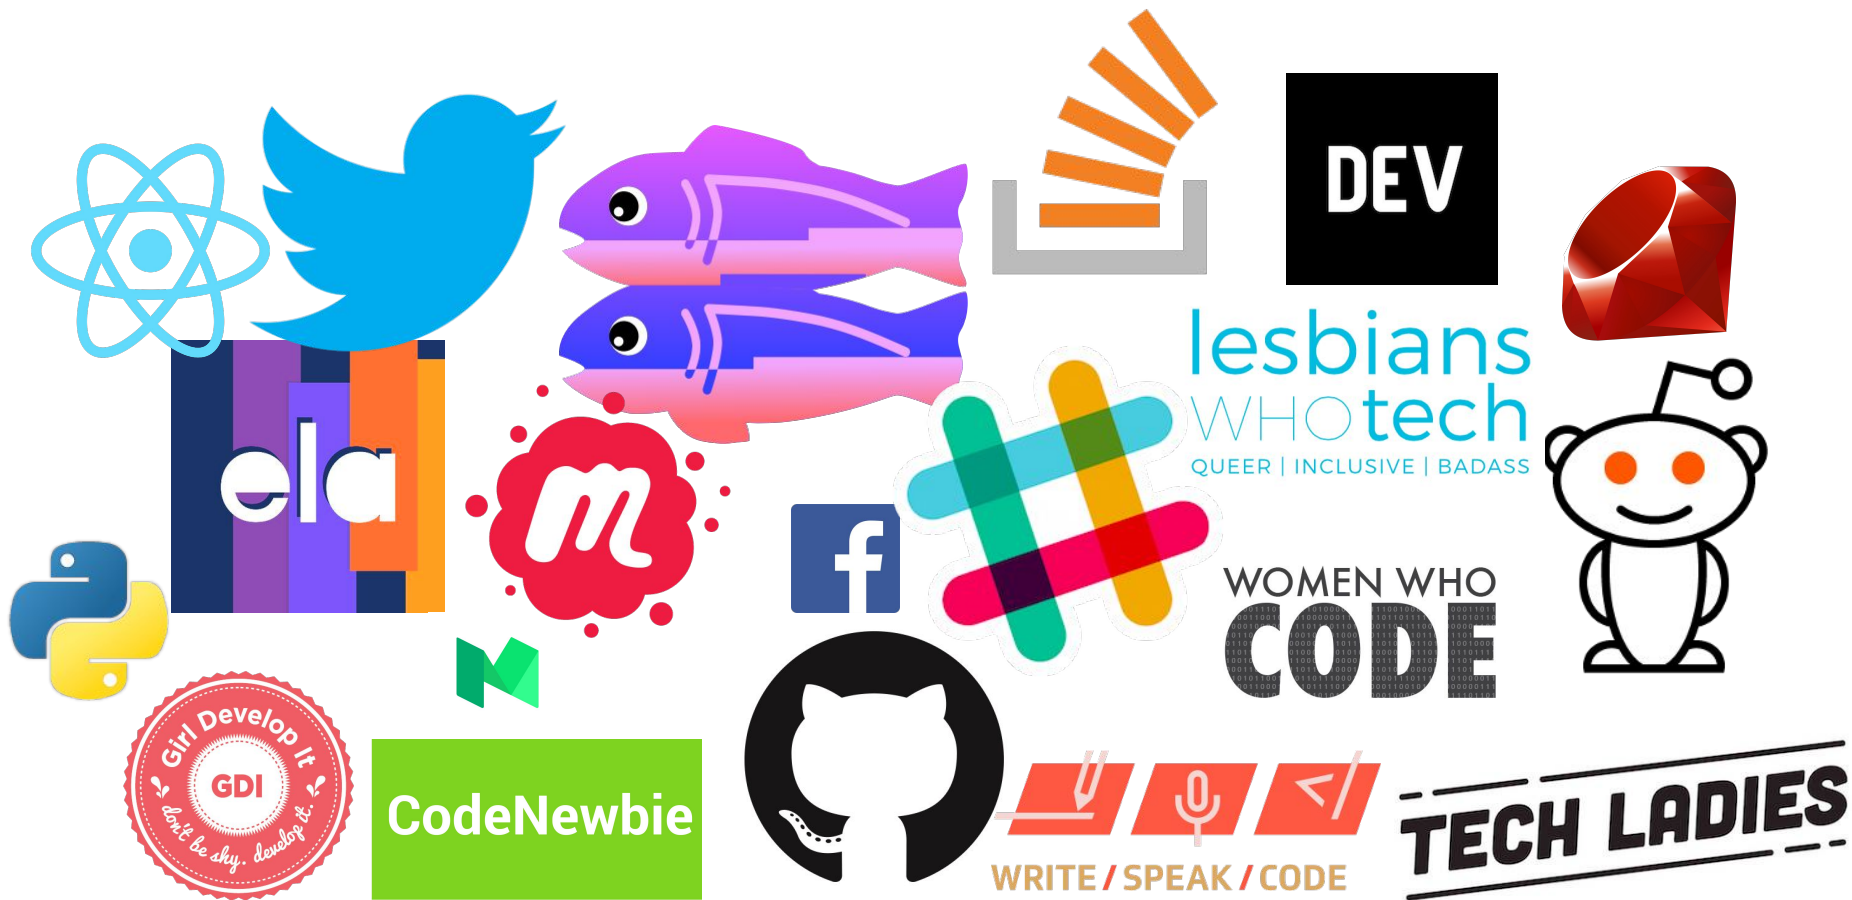

engage.

But how do you actually engage?

Consistently:

- **Ask questions**
- **Contribute answers**
- **Uplift others**
- **Be your weirdo self.**

Find the right communities.

3 things to consider

- Will I learn?
- Can I contribute?
- Culture fit?

One more thing.

Is it shareable?

Who you are.

⚒ My toolbox

I mostly work with RoR and JavaScript.

🏛 Learning

How to test! But I'd also like to learn about PWAs.

🖥 Hacking on

You're looking at it 😉

◈ I'm available for

Speaking engagements, meetups, podcasts, etc.

re: Where do you keep your technical documentation? Aug 13, '17
We've been keeping our technical documentation in a github ...

re: What are some ideas for tags on dev.to? Aug 11, '17
Ended up going with #ourstack!

re: What do the heart/thinking/praise/unicorn buttons mean to you? Aug 11, '17
Here are some more interpretations 🙃dev.to/_bigblind/how-...

re: Explain Bubble Sort Algorithm Like I`m Five Aug 10, '17
Here's an awesome explanation: dev.to/vaidehijoshi/bubbling...

re: Writing My First CFP Aug 10, '17
Great post! Will you be at the Write/Speak/Code conference ...

re: Accessibility Primer Part 0: Glossary Aug 09, '17
Thank you so much for sharing this.

re: Explain git like I'm five Aug 09, '17
@maestromac this is all you

re: I'm Wes Bos, Ask Me Anything! Aug 09, '17
+1
